

I listen to K-Love every day & feel it has a big impact on my community. I have lots of friends who listen to it, also. It has a positive, encouraging message & is not only safe, but also beneficial for children to listen to, also. I believe that K-Love brings a message to many who otherwise would never hear it. It supports wholesome family values that are hard to find in other media types today. Please do not make it so that we cannot pick up K-Love on our radio anymore.
